Dear Superintendent or School Board President:

As colder weather arrives, we are reminded that many families may be forced to make difficult decisions on how to stretch the family budget to pay for basic needs such as heat, food and medication. In an effort to help educate the community about energy assistance programs that are available to assist with the burden of heating costs, Elizabethtown Gas would like to share the attached information with the families of students attending school within your district.

The attached Energy Assistance Fact Sheet provides contact information for agencies that can provide more detailed information as well as program applications. We ask that you share this information electronically, through your electronic backpacks and as a posting on your school website.

Representatives from Elizabethtown Gas are available to speak about conservation measures and energy assistance at school assemblies, parent group meetings or any other event you may be hosting.

Should you have questions or need additional information, please feel free to contact me at 908-662-8475.

Sincerely,

Tiffani Llerandi
Energy Assistance Coordinator
