

JUNE 27 – 30

WARREN HILLS

ROBOTICS CAMP

Learn to code and build this summer at WHRC!

Warren Hills Robotics Camp is back for a second year of fun. Created by Warren Hills High School students, the program teaches elementary age kids to code and apply logical thinking. Using LEGO Mindstorms, students will be taught how to build and program their robots to perform a variety of tasks. We hope that early to exposure to Science, Technology, Engineering, and Math (STEM) will encourage students to pursue these fields in the future.

For more information and registration visit:

<http://tinyurl.com/whsummer2017robotics>

Time:

9 am – 12 pm

Participants:

**students going into
5th, 6th, and 7th gr
(Spaces are limited
to 21)**
